

IMEA 2007 Composition Competition Entry Form

High School Division

Submit a separate form for each work entered

The High School Division of the Indiana Music Educators Association's Composition Competition is open to students in grades 9–12 who reside in Indiana and are sponsored by a school teacher or private teacher who is an IMEA member.

Composers may enter in multiple categories (see category list), but may submit *only one work in each category*. Each composition should have a title, and must be the student's own work; teachers are allowed to advise only. Scores and recordings entered in the high school division should be marked with the composer's name.

Composers wishing for materials to be returned must also submit a self-addressed envelope of sufficient size and stamped with sufficient postage. Submissions not accompanied by a SASE will be recycled (when possible) and/or disposed. We will make every reasonable effort to return all materials for which a SASE was provided, but IMEA assumes no responsibility for loss or damage of submitted materials.
